

After a long day of attending sessions at the Annual Meeting, it is good to have a haven to relax and recharge for the next day. AAR has negotiated special conference rates at twenty-seven luxurious and convenient hotels for the convenience of meeting attendees. Hotel room rates do not include the average of 16 percent hotel room tax. Please note that the single/double/triple/quadruple room designation denotes the number of room occupants, not the number of beds. A triple room means three people are sharing two double beds, unless a rollaway bed is requested at an extra charge.

Please note that due to the large number of hotels in use for the Baltimore Annual Meetings, only a list of the hotels and the single room rates can be provided at this time. More information will be included in the May issue of *RSN*.
